

Announcement of Periodic Review: Moody's Ratings announces completion of a periodic review of ratings of Construction Guarantee Cooperative

23 October 2024

Hong Kong, October 23, 2024 – Moody's Ratings (Moody's) has completed a periodic review of the ratings of Construction Guarantee Cooperative and other ratings that are associated with this issuer.

The review was conducted through a rating committee held on 18 October 2024 in which we reassessed the appropriateness of the ratings in the context of the relevant principal methodology(ies), and recent developments.

This publication does not announce a credit rating action and is not an indication of whether or not a credit rating action is likely in the near future. Please see the Issuer page on <https://ratings.moody's.com> for the most updated credit rating action information and rating history.

KEY RATING CONSIDERATIONS AND RATIONALE ARE SUMMARIZED BELOW

The ratings and assessments of Construction Guarantee Cooperative (CG), including the A2 insurance financial strength rating (IFSR), reflect its strong market position in Korea's construction guarantee market; solid capitalization and gradually rising but still low level of high-risk asset exposures. We also take into account the cooperative's close relationship with the Ministry of Land, Infrastructure and Transport (MOLIT) and the Government of Korea (Aa2, stable) and its important policy function of supporting the domestic construction industry. Although the Korean government does not own CG, it is likely to provide operational and financial support to the cooperative through the MOLIT when needed.

These credit strengths are offset by CG's high business concentration in the construction industry, a cyclical sector that is closely linked with domestic economic conditions and is vulnerable amid the currently high interest rate environment. CG also has moderate profitability.

The negative outlook on CG's ratings reflects pressure on the cooperative's profitability and capitalization over the next 12-18 months due to potential losses from its guarantee exposures to member construction companies. The pressure stems from challenging credit conditions in the Korean construction sector and project financing market, which could increase defaults among CG's member companies and, consequently, lead to higher guarantee losses for the cooperative.

This document summarizes our view as of the publication date and will not be updated until the next periodic review announcement, which will incorporate material changes in credit circumstances (if any) during the intervening period.

The principal methodology used for this review was Property and Casualty Insurers published in April 2024. Please see the Rating Methodologies page on <https://ratings.moody's.com> for a copy of this methodology.

This announcement applies only to EU rated, UK rated, EU endorsed and UK endorsed ratings. Non-EU rated, non-UK rated, non-EU endorsed and non-UK endorsed ratings may be referenced herein to the extent necessary, if they are part of the same organization list.

This publication does not announce a credit rating action. For any credit ratings referenced in this publication, please see the issuer/deal page on <https://ratings.moodys.com> for the most updated credit rating action information and rating history.
